SET YOUR CAREER ON THE RIGHT PATH, FROM THE START.

We believe choosing a school that offers the greatest learning environment and employment opportunities is the best path to success. Delmar College has been inspiring students since 1950. Today, Delmar is the most respected name in post-secondary education for Beauty Professionals and has one of the largest alumni networks within Calgary. We approach our hair and esthetic programs from a student focused perspective and believe the education we provide is second to none.

Delmar College is led by Dan and Carla Cavanagh, both of whom have their Bachelor of Education degrees from the University of Alberta, as well as hold Masters degrees in Educational Administration. Our instructors are experts in their fields and are very successful in their own careers. Our programs not only offer great creative and industry opportunities, backed by solid business training.

Delmar is located two blocks from Chinook Station in a newly renovated facility. We are registered under the Private Vocational Training Act and are members of the National Association of Career Colleges (NACC) as well as the Alberta Association of Career Colleges (AACS) and have been a long standing member of the Better Business Bureau.

Let us share our passion with you!

PROOF IS IN OUR NUMBERS

Job placement rates are proof positive that career training has adequately prepared students for the workforce. It demonstrates if a school has prepared its students adequately in the classroom and on how to move beyond into a career. At Delmar, our training programs go way beyond the basic program skills. We support our students to a greater extent and work with employers to address their need for qualified applicants. This support is evident in our numbers; Delmar College is very proud to post a **97% Job Placement Rate**.

THE DELMAR DIFFERENCE

In depth curriculum

Delmar has a very in-depth structured curriculum that covers all aspects of hairstyling from the very basic to advanced, including skills other programs do not. Our instructors are highly skilled in delivering curriculum that is engaging and supportive of many different learning styles. We focus on ensuring our students have the right foundation to pass their government exams with ease. Our hair training programs include colour placement, extensions, long hair styling, perming, roller sets, finger waves and cutting. All of our cutting exams and final exams are done on live models, emulating the government exam process.

No cost tutoring

We go the extra mile for our students and our no cost tutoring is just one example. If students need extra help or time to perfect their skills, we provide it to them. Unlike other schools where education ends with the ring of the class bell, Delmar is invested in your learning.

Salon and classroom

Our curriculum is based on over 65 years of experience in providing the best methods to ensure success. We offer small class sizes to ensure that students receive feedback in a timely fashion and get the attention they deserve. We work closely with industry professionals that often come to provide product knowledge classes. We also encourage salon owners to speak with our students about industry changes or to provide a demo on current trends. Delmar operates a full time salon and spa and, we use live models so our students get real, hands on experience.

Want to stand out and get ahead?

The Beauty industry is increasingly competitive. No longer is it just about your practical skills. Employers are now looking at the bigger picture; can this individual sell product, attract new clients and provide 5 star customer service. Business skills are an essential part of your education and we support our students in excelling at them.

As part of every Delmar course, we offer two exclusive real-world business training programs: **Nuts and Bolts Business Training** (where Delmar has exclusive Canadian Program rights) and Delmar's own **E3 Program**. Both programs focus on empowering and educating students to embrace the skills they need to truly succeed in their careers.

PROGRAMS THAT DELIVER

PHOTO SHOOTS

Flex your creative muscles and get a chance to collaborate with other industry professionals like photographers and make-up artists. Our students have the opportunity to capture their creative projects while participating in photo shoot assignments. These photos are perfect for building your portfolio.

PREPARING FOR WHAT'S NEXT

We show students how to develop their portfolio and provide ample opportunity to fill it with their accomplishments, knowledge and photo shoot images. Students receive the opportunity to gain experience in a full working salon environment. This helps to prepare you for the exciting fast paced career that lies ahead.

VOLUNTEER EXPERIENCE

Give back and further develop your skills while expanding your network. Our volunteer opportunities give students the opportunity to be involved in community and meet potential clients. We work very closely with modelling agencies, Miss Calgary competitions and non-profit organizations like Kids Cancer Care and McBride Association.
